16<sup>th</sup> March 2020

Dear Parents and Carers,

## UPDATE

On government advice the school remains open as usual for all children except those who have developed a new persistent cough or temperature above 37.8. These children will need to remain at home for a period of 7 days.

In order to ensure we do what we can to reduce the risk of illness in school we are currently following increased hygiene procedures as set out by Public Health England. E.g. increased frequency of handwashing and increased cleaning of high touch areas throughout the day.

Many of you may have heard that schools are preparing work in the event of enforced closure. We have received no further information to suggest that this will happen, however, we are trialling methods of sharing work and setting home learning.

All children in KS1 and KS2 have access to [www.j2e.com](http://www.j2e.com) where they can use an online suite of computing tools. They all have their own username and password with which they gain access. Today, they will also bring home a personalised Seesaw login which enables their teacher to set home learning tasks. If you have access to the internet, please follow the instructions to open your child's folder. At present, there will be no work within the folders as we are just testing login procedures.

If you have any difficulties please make contact with your child's class teacher.

Yours sincerely

Lisa Harris
