Carry forward from 2016/2017		£4268
TOTAL ALLOCATION		£20848

2017/18 Strategic Plan for spending

Strategy	Objective	Anticipated Cost/ allocation made	How will we know if this strategy is effective?	Outcomes/ Evaluation
<p>- Based on our knowledge of the biggest barriers to learning for these children</p>				
To buy in the services of a family support teacher	<ul style="list-style-type: none"> To improve the attendance of a small minority of children To raise the engagement levels of 'hard to reach' families and support them with home and school learning. 	£5000	<ul style="list-style-type: none"> Attendance for two focus children will increase from between 60-80% in the autumn term to at least 90% by the summer term. Targeted families will have a better understanding of how they can support their children at home and school- measured by discussion with families Parents will have one person who they can liaise with over concerns/ problems- hopefully raising their levels of confidence in dealing with school and the problems their children may be having- the success of this will be measured 	

				by an increase in number of interactions with family support worker.
To provide resources for low income families to support the education of their child (this will include items as needed such as school uniform, shoes, funding of all school trips, including residential visits, before and after school clubs).	<ul style="list-style-type: none"> To ensure that all children have access to the same learning opportunities in school and beyond. 	£500		<ul style="list-style-type: none"> Feedback from meetings with parents Attendance at residential visits/ trips
Individual Closing the Gaps Planning meetings	<ul style="list-style-type: none"> To enable children who have gaps in their learning to make accelerated progress and close these gaps 	£2000		<ul style="list-style-type: none"> Individual closing the gap plans, meeting notes book scrutiny and where appropriate, standardised scores will demonstrate that these children are closing their learning gaps effectively.
To employ the services of a trained play therapist/ children's counsellor	<ul style="list-style-type: none"> To enable children with issues around anxiety to develop coping strategies 	£2000		<ul style="list-style-type: none"> Staff will receive additional training on supporting children with anxiety and will be better placed to support children in their class. Children in these targeted groups will demonstrate higher levels of resilience in school through, for example, improved attendance, improved ability to cope in stressful situations) as measured by staff , children and their parents feedback. Also a self-scaled scoring system used by children and teachers will demonstrate improvement for all pupil in this group.

<p>1:1 and small group teaching sessions with a qualified teacher</p>	<ul style="list-style-type: none"> To ensure that targeted groups of children, receive pre-teaching and targeted , short term interventions to help them either 'close the gap' or fulfil their potential if they are more able. 	<p>£10000</p>	<ul style="list-style-type: none"> A higher % of our pupil premium children will meet age related expectations at the end of the school year. (From 50% in 2017 to 70% in 2018) Some of our pupil premium children will be securely working at greater depth (from 0 in 2017 to 18% in 2018)
<p>Targeted before and after school clubs run by teachers</p>	<ul style="list-style-type: none"> To enable children to access additional teaching / learning time in small groups to develop their confidence in particular 	<p>£1348</p>	<ul style="list-style-type: none"> Feedback from children and their class teachers will demonstrate improved confidence in class Baseline confidence measures against end of session/ programme measures will show improvement for all pupils Targeted pupils will meet age related expectations at the end of the year.
<p>Total</p>		<p>£20848</p>
